

FEE COLLECTION

Focus on childcare, not fees

-  Eliminate bad debt from your setting
-  Maintain good relationships with parents
-  Significantly cut your admin time
-  Reduce stress about pay day

Our service
operates at a
98%
success rate
across the
board!!

What is Fee Collection?

Fee Collection is a service which collects money from parents' bank accounts every month on your behalf. This means that rather than you struggling to speak with parents about how much they owe, you can talk to them about what really matters instead - their children. **What's more - we operate a 98% success rate across the board!**

How can it help me?
Let's face it - no one likes having awkward conversations about money, least of all childcare providers! By using Fee Collection, you can transform the way your setting works by keeping your administration completely separate from the everyday care of children. This means you can avoid breaking the relationships you've worked hard to build with parents.

Did you know...

51%

of nurseries spend more than 2 full days a month on invoicing...

As a result, you will have more hours in the day to focus on providing great childcare, without the worry of whether parents will pay you on time, visiting the bank or securing any cash. This means:

You have less overall administration to take care of

You follow data protection by keeping financial information safe

You don't waste resources chasing payments

Your incoming finances are easier to manage

Visit www.parenta.com to find out how we can help you!

You can also use Fee Collection as a way of marketing your setting. As a benefit to parents, you can tell them that they do not need to worry about writing out a cheque or using a credit card to pay their fees every month. It's all taken care of when they sign up to our fee collection service!

Is it safe to use?

Yes, it is very safe for parents to use. Having Fee Collection means that parents are covered by the Direct Debit Guarantee - meaning they will be notified before each payment is taken and are protected if payments are made in error. For your childcare business, it means that sensitive financial details are kept secure, rather than risking them being lost or left lying around at your setting on pieces of paper.

Do I need to spend any time setting it up?

No - once we have your information, you simply hand parents a form to fill in and send back to us to set up a regular payment from their account. It's that easy!

What makes you different to any other company?

Our fee collection service has been used to support settings like yours for many years! We want the best for the next generation and we know that taking the hassle out of arranging payment from parents allows you to concentrate on providing even more great childcare.
